

Our Training-Your LMS

SCORM Compliant Training Files

Culture, Connections, and Compliance
HR Proactive Inc.'s training programs are available to license as a SCORM Compliant Package and can be hosted on your Learning Management System (LMS), company intranet or HRIS System. Our online video programs can be customized with your company brand/logo and policy. On average, our compliance training videos are 20-minutes in duration and include a quiz to track learner progress.

At HR Proactive Inc., the real value proposition is giving our customers a choice. We can provide them with a robust platform or we can provide them with compelling content that works in their own LMS.

What are the benefits of using SCORM compliant training courses?

- Allows you to license our course content (including videos, participant guides, and quizzes) and host it on your own LMS.
- Saves time and money purchasing off-the-shelf content.
- Train as many employees as you wish, with no additional fees.
- Have instant Onboarding Courses to meet your compliance needs.
- Track the progress of employees.
- Enroll participants as often as needed.
- SCORM allows content creators like HR Proactive Inc., to upload content to your Learning Management System without any compatibility issues.

Ask us about bundling our courses in SCORM files for you to upload for New Employee Onboarding.
